Physical Therapy Discharge Summary

Patient Name: Ryan Jones	Chart #: 310.002.12
Diagnosis: Stroke, Left Hemiparesis	Date: 9/01/2019
Therapist: Michael Chen, PT, DPT, NCS	Page 2 of 7

E. Functional Mobility:

Ms. Jones ambulated 150 feet on level surfaces with a single-point cane and moderate verbal cueing for sequencing. She required minimal assistance for donning her ankle-foot orthosis (AFO) and maintained her walker within reach during all transfers. Her gait speed improved from 0.42 m/s at admission to 0.71 m/s at discharge, still below community ambulation norms. She climbed 12 steps with one handrail and alternating pattern after two trials. Fatigue was the primary limiting factor beyond 200 feet.
